Air-Cooled Self-contain Package Unit

Innovatively Creative ...

TRUST the AIRXperts

Commercial Type Air-Conditioner

Self-contain Package Type Air-Conditioner

Sabro air-cooled self-contained air conditioners are single packaged air conditioners. These units are factory charged, tested and internally wired for rapid installation. There is no additional refrigeration work required at installation site. These units are designed to provide maximum efficiency at tropical conditions.

The weather proof design of units permit their complete installation outside the building. These units consist of compressor, condenser coil, condenser fan & motor, evaporator coil, evaporator fan & motor and all other necessary electrical & refrigeration control equipped with accessories.

If required with "heat" mode, Units can be provided with reverse cycle arrangements/duct heater as optional feature.
